ADVANCED PRINT & PROTECT SOLUTIONS

ATHLONE | BELFAST | CORK | DUBLIN | GALWAY | LIMERICK | SLIGO | WATERFORD | WEXFORD

SMART SECURITY TO KEEP YOUR BUSINESS SAFE

At MJ Flood, your data security is our top priority. Our MFP devices offer best available security, with bizhub SECURE providing an extra layer of protection without disrupting your workflow. Activate bizhub SECURE on any Konica Minolta bizhub device, on-premises or before delivery, to safeguard your print data and device storage.

How do MJ Flood customers enable the award winning security features that are built-in to every bizhub device?

MJ Flood will take care of the service for them!

Irrespective of the office's scale or the company's size, our assistance extends to all, offering support with the comprehensive security options of **bizhub SECURE**, **bizhub SECURE Platinum**, and **bizhub SECURE Ultimate**, thereby ensuring secure operations across the board.

Customers enjoy the liberty to personalise their security services with their dedicated MJ Flood Area Sales Manager.

This collaborative approach ensures a bespoke protection solution that aligns perfectly with the unique needs and challenges of their office environment.

DATA: YOUR MOST VALUABLE & VULNERABLE BUSINESS ASSETS

Your data may be the most precious – and most exposed – of all your business assets. But there is a simple way to ensure that those assets are safe and secure: bizhub SECURE defends your documents, data and corporate information.

KEY CONSIDERATIONS FOR YOUR PRINTING SECURITY

Data Security
You can safeguard your device with different encryption and overwriting methods, which secure the data in your bizhub. This prevents data loss or theft from your bizhub and data that passes through it. With bizhub SECURE, your office data is safe and secure.

Security settings for document printing
With bizhub SECURE, control how long temporary print data is stored on your multifunctional device to prevent potential data exposure. You can also set specific time limits for box files on your bizhub's hard drive.

Authentication
Keep sensitive documents secure by storing them in a password-protected box or folder on your bizhub's hard drive. For added security, encrypt the hard drive to protect data even if the drive is stolen.

SHIELD GUARD

KONICA MINOLTA

SAFE GUARD YOUR CONNECTED ENVIRONMENT

Introducing Shield Guard: Your Convenient Cloud-Based Solution.
Shield Guard simplifies monitoring print fleet security with a cloud-based platform that gathers data, alerts you to issues, and performs mitigation.
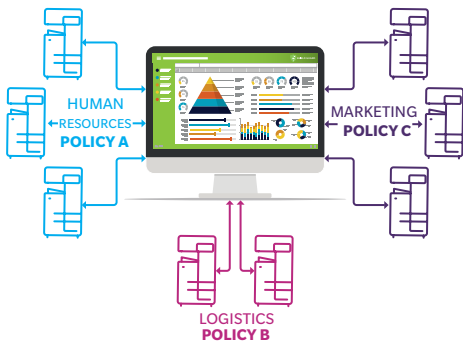

IT admins can easily access the security status of all devices with a single click. Shield Guard makes it effortless to oversee and manage security for the entire fleet, specific device groups, or individual devices, ensuring up-to-date security.

Business owners gain confidence with a comprehensive, easy-to-understand overview of print fleet security performance and a solution that supports compliance with information security regulations.

SHIELD GUARD WORKFLOW

Easy To Set Up, Easy To Execute
The system allows the administrator to configure policies for devices, either individually or in groups. The system performs a compliance assessment of MFPs according to the group's policy.

Bitdefender®

What is Bitdefender Antivirus Software?

Bitdefender Antivirus Software is a comprehensive security suite that protects against malware, ransomware, phishing, spyware, and more. It offers plans for businesses of all sizes, covering Windows, Mac, Android, and iOS.

Bitdefender uses advanced AI, behavioural detection, and cloud-based scanning to block threats and optimise device performance, ensuring a fast and secure experience.

Benefits of using Bitdefender

Bitdefender provides robust security with a 100% detection rate and minimal system impact. Key features include VPN, Parental Controls, Password Management, and more, with easy setup, automatic updates, and remote access via the Bitdefender Central App.

Managed Print Services

ABOUT US

MJ Flood's end-to-end Managed Print Services (MPS) solution offers comprehensive fleet management for all your networked and local print devices.

This service helps you control operating costs and enhance the efficiency of your printing operations.

With MJ Flood's MPS, you can significantly reduce printing expenses, free up capital, and eliminate the hassle of supporting and maintaining your printing infrastructure. This allows your IT team to focus on more strategic tasks, improving overall productivity.

Benefits of a Managed Print Service Solution:

• Cost Reduction

• Capital Preservation

• Enhanced Efficiency

• Maintenance and Support

• Improved Security

• Sustainability

• Scalability

MJ Flood's MPS ensures that your print environment is cost-effective, secure, and reliable, allowing you to focus on your core business activities.

For enquiries about our antivirus software solutions, please contact us via email at **info@mjflood.ie** or by phone at **01 466 3500**. With our main office situated in Baldonnell Business Park, Dublin, and our extensive network of branches in Athlone, Belfast, Cork, Galway, Limerick, Sligo, Waterford, and Wexford, we guarantee comprehensive support to our customers throughout the sales process and beyond.

Our dedicated Managed Print Services team is ready to assist you with detailed information and support tailored to your print security needs.
